

*laying the foundation of excellence*

# RATLAM PUBLIC SCHOOL

CBSE (10+2)

*Where minds shape, talents  
grow and creativity blooms*

## Perspective

*Ideal School  
of  
Ratlam*

*"Aiming at strengthening the philanthropic foundation among students and igniting a spark of scientific enquiry, we believe in experimenting, innovating, exploring, observing and creating the bridge between their aspiration and accomplishments."*

# The Vision

## The child is at THE CENTRE of all we do

Education is more than mere literacy. It is in fact a soul searching exercise, committed towards excellence.

The aim of the school is to develop every aspect of the child's personality so that students are not just literate but educated in the true sense of the word. We provide an enriched and open environment where the students teacher interaction is informal yet a high degree of discipline is maintained. We believe it is important to teach a child, but it is even more important to make him want to learn. Our accent is on imparting critical skill rather than a lot of information. Any school is good enough if it is able to challenge one's curiosity, make one restless with a strong ambition, fire one's imagination, make one reach out beyond skies [for today the sky is not the limit], and make one's spirit soar high. And we at RPS try just to achieve this.

Thus exploring RPS adopts psycho analytical methodology, which is more prevalent in developed countries & is scientifically developed so as to provide conducive environment for the complete development of tender mind.

# Infrastrucutre

## Targeting the PERFECT Educational Environment

- **STEAM Laboratory** For the first time in the State a school is offering STEAM (Science, Technology, Engineering, Arts, Mathematics) Laboratories for Practical Knowledge to its students from Nursery to 12th Standard.
- **Thinkatorium** - It is an advanced concept followed in very few institutions in the world. This place provides every student the right environment with all aids and a reason to think over problems / issues or matters concerning himself or the world around. This way the student develops a habit to objectively think and develops its ability to think through various exercises designed and implemented by experts.
- **Meditation Hall**
- **Open air Class Rooms** in contrary to closed class rooms.
- **Discussion Plazas**
- **Hobby Center**
- **Music Room** Not just for practicing instruments, vocal, classical but also for everyone to develop an interest and sense of music.
- **Mini Amphitheater** - This is a small stage which is used, frequently for performance by students during their sessions.
- **The Movie Hall** - The hall provides 3D visualization, LCD & Bank of CDs on various knowledge topics and encyclopedias and documentation.
- **The Zoo** - This place houses animals birds, fishes, tortoises etc for children to get a live feel of their most loved ones in a wide lush garden of 2 acres.

# Curriculum

## Balance between **ACADEMICS** & Development of the body and the soul

The curriculum has been evolved to achieve a balance between the academics and the development of the body and the mind.

An eclectic mix of sports, music, dramatics, dance, computer with academic and finishing classes typify a normal day at RPS.

Specific subjects are taught through visual media like multimedia projectors in a studio atmosphere.

Advance teaching facilities like teaching third language through language lab.

The school keeps all details of individual performance in the activities and maps it constantly. These things are then discussed with parents so as to ensure proper inputs.

### ➤ DPP (Daily Practice Paper)

The school provides free daily practice papers to prepare the students of classes 6th to 12th for entrance examinations like - IIT-JEE, NEET, CLAT etc.

# Evaluation

Is a **PROCESS**,  
a means to an end  
and not **AN END** Itself

Teaching method in RPS are specialized in the sense that they guide the students towards self learning, and the teachers towards continues improvisation.

Teaching Methodology involves classrooms sessions clubbed with Class assignments. Self assignments are given on the same lines, which are solved in special tutorial sessions by the teacher. **No home work is given to students that may need any out side help.**

The focus is on conceptualization and building the topic from scratch rather than on practice and rote learning. Motivation to learn subjects is ensured by relating them to practical situations.

**In junior classes the preparation to face future competitions is done by means of skill development** [like analytical, memorizing abilities, observation] preparation of base knowledge in areas like language, general awareness etc.

**In higher classes special emphasis is on training for competitive exams depending on the choice of area.** The preparation of the syllabus is covered under the preparation for competitive exams. Special inputs are given for scoring high in boards [Public exams].

# Partnership

## We Strive for a Better CHILD-PARENT Relationship

Learning should be a passionate, interactive process in which children are allowed to explore and evolve objectives. An environment that is conducive to learning is one which allows space to express opinions, set up communication and build skill and resources. While the school is committed to building such an environment, it believes that the learning is not complete without the parental commitment to the same ideals, and only then the magic will unfold.

We take very special care of our students and parents in a different way. We interact with them periodically in OPEN HOUSE / PARENT TEACHER MEET where we discuss about their ward's mental, physical emotional progress.

To develop better child-parent relationship, we organize special seminars for parents to make them understand their child's psychology in right perspective because we want, child should be accepted as he is, and not as parents want him to be. We at RPS like to remain in constant touch with our parents who are our greatest assets. In an honest effort to develop better and fruitful understanding between student-parent & teacher, RPS hosts special interactive seminars.

# Sports & Hobbies

## Making **CHILDREN** learn while having fun

We at RPS Sports Academy encourage the children and the teacher to engage themselves in activities that they enjoy. School days are thus fun filled and envelope the whole school in a high state of excitement. Students regroup to actively pursue a hobby of their choice from a wide range of hobbies provided to them by the school. Some of them are Yoga, Karate, Outdoor, Indoor and Adventure sports, computer club, Math club, Public speaking etc.

### SPORTS FACILITIES -

1. Swimming
2. Golf
3. Yoga
4. Wushu
5. Kho-Kho
6. Kabaddi
7. Cricket
8. Basketball
9. Volleyball
10. Karate
11. Boxing
12. Chess
13. Softball
14. Football
15. Athletics
16. Hockey
17. Table Tennis
18. Lawn Tennis
19. Skating
20. Pitthu
21. Rifle Shooting
22. Baseball
23. Handball
24. Softball
25. Horse Riding
26. Scout & Guide
27. NCC

Each student is made to pursue at least one sport thoroughly so as to develop expertise into it. Outstanding students are given training through specialized coaches & academies to pursue the sport at excellence level.

# Personality Grooming

## Creating International CITIZENS with Indian values

This a very specialized activity particularly relevant for the adolescent age group of boys and girls.

A growing girl or a boy needs a quality of finesse and a "Polish" to grow into a complete person not only to become an attractive woman or a man but also to be able to face the world at large with confident mannerism.

The curriculum for personality development is based on personal hygiene, dressing sense, eating habits and method, postures and body language.

Code of conduct for interacting with elders at home, guests, social gatherings, formal and informal.

Respect for Mother Nature and their responsibility towards its preservation.

To emphasize patriotic feeling & the pride of being an Indian in whatever one does in life.

These classes are specially designed on the basis of specially worked out situation and the responsiveness of the children towards these situations will be monitored.

The main objective is to develop a student who will adjust and adapt in every situation without losing the National Character of India.

## A Continuous Enriching Process

### On Going **FACULTY** Training

We are conscious that any training process is a never ending one and no one, more so, a teacher by profession can be "fully trained" at any given time. It is literally an on-going process in the true sense. Keeping all these things in mind, we at RPS have the following strategies for a continuous faculty training.

The Education Management Center [EMC] of RPS society maintains a team of subject experts as resource persons and others as counselors. Teachers are given training as per requirements of the school.

Time to time we also invite experts from COE (Center of Excellence, a unit of CBSE) and well known publishing houses and institutions. Work shops have been conducted on phonetics in English Language.

On the job training is also a continuous process on an everyday basis, where teachers while inside a classroom are observed, monitored and guided towards interactive teaching.

It is training ones mind for setting good examples for discipline and good conduct. While there is no defined procedure for such training, teachers are under constant observation and corrective suggestions are made without losing time.

# Career Education

## For Students to become more **SKILLED**

Skill or Vocational Education and Training, also called Career and Technical Education & Training at RPS prepares students for jobs that are based in manual or practical activities, traditionally non-academic and totally related to a specific trade, occupation or vocation. It is sometimes referred to as technical education, as the learner directly develops expertise in a particular group of techniques or technology.

We at RPS offer a platform for the students to get exposure to technical certification courses in collaboration with **IIT, Mumbai** and multinational companies like **IBM**, to learn global level skills.

RPS also offers Free "**Beyond Academics**" courses which are a part of habit and knowledge building program for young students and young life professionals. These courses includes -

- Junior Scientist
- Junior MBA
- Junior CEO
- Junior IAS

# Courses

- History
- Political Science
- Geography
- Economics
- Mathematics
- Applied Mathematics
- English
- Physics
- Chemistry
- Biology
- Physical Education
- Painting
- Psychology
- Sociology
- Business Studies
- Accountancy
- Informatics Practices
- Hindi Core
- Computer Science
- NCC
- Entrepreneurship

## Skill Courses 6th to 8th

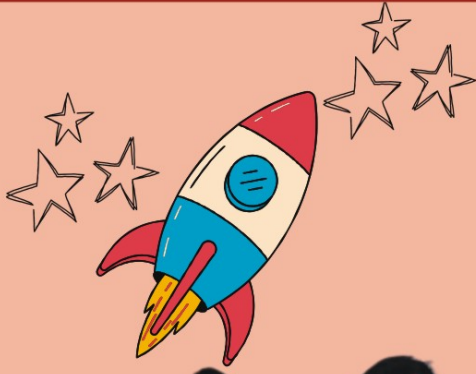

- Artificial Intelligence
- Beauty & Wellness
- Design Thinking
- Data Science
- Financial Literacy
- Handicrafts
- Information Technology
- Marketing/Commercial Application
- Mass Media
- Travel & Tourism
- Coding

## Skill Courses 9th - 10th

- Information Tech.
- Agriculture
- Banking & Insurance
- Marketing & Sales
- Multi Media
- Artificial Intelligence
- Physical Activity Trainer
- Introduction to Financial Markets
- Front Office Operations
- Data Science
- Retail
- Tourism

## Skill Courses 11th - 12th

- Agriculture
- Artificial Intelligence
- Banking
- Business Administration
- Cost Accounting
- Design
- Early Childhood Care & Education
- Electronic Technology
- Information Technology
- Insurance
- Marketing
- Multi-Media
- Retail
- Salesmanship
- Tourism
- Web Application
- Yoga
- Financial Markets & Management
- Data Science
- Front Office Operation
- Taxation
- Office Procedure & Practices
- Textile Design
- Fashion Studies

“The goal of education is not to increase the amount of knowledge but to create the possibilities for a child to invent and discover, to create men who are capable of doing new things.”

**Sanyogita Singh**

Director & Principal  
Ratlam Public School  
CBSE City Head, Ratlam District

कृतिदेव यहां सर्वदा रहो कर्मशील, श्रमवान बनो तुम,  
सरिता सलिल गतिमान, पथ बढ़ते चलो तुम,  
अपने हाथों से वर्तमान सँवार, संस्कारवान शिक्षित बनो तुम,  
दूर दृष्टि रख, बड़ा सोचो, नई प्रेरणाएँ ले चलो तुम,  
नव चेतना संचार कर सद्गुणों से धरा महकाओ तुम,  
समय का रखो मान सदा, व्यर्थ ऊर्जा न गवाओ तुम,  
सेवा, क्षमा, सत्य, संयम सदा धारण करो तुम,  
जीवन की गति अनुशासन से बांध, विवेकवान बनो तुम,  
प्रसन्नचित करो नित कार्य, भाव उत्कर्ष रखो तुम,  
इस धरा पर स्वर्ग संभव भेदभाव मिटा कर बढ़ना तुम,  
प्रकृति से सामंजस्य कर सदैव प्रगति करना तुम,  
है आशीर्वाद सदैव हमारा, मन में विश्वास रखना तुम।
